

A group of people's hands are clasped together in a circle on a wooden desk. In the background, there are two laptops, a smartphone displaying the time 10:24, and a power strip with several outlets. The scene is lit with warm, natural light, suggesting a collaborative work environment.

Double Degree Programs at SGH

Academic year 2020/21

What is a double degree program?

2 diplomas during 1 single study: diploma of your home university and of the partner university

Program for selected students with good academic record and proficient in foreign languages

1 year at partner university with full recognition of courses that are included in the plan of a given double degree program

When at partner university students have same rights and obligations as students of host University (*i.e. they can still receive social or other scholarships at home university*)

On the basis of the DD agreement student is waived from fees at partner university. If he/she pays fee at home university student still needs to pay it while abroad.

Possibility of receiving Erasmus+ grant for the period of study abroad (under condition that SGH receives sufficient amount of grant for a given academic year)

Selection to DD is done separately for each program and takes place beyond the online application system of International Centre

Only for candidates of full-time studies within the major offered in double degree
