an additional point D is added, reading as follows:

D. Covid-19 vaccines

Covid-19 vaccination on the day of the exam or maximum of 2 days prior to the exam's set date may be regarded as justified absence. A student suffering from a deterioration in health due to the aftereffects of vaccination may apply for additional date of the exam to be set. The following actions must be taken:

- Sending your Assistant (from an email address in the SGH domain) a scan of your vaccination certificate or other document attesting to the date of your vaccination, **on the due date of your exam at the latest if you want this absence to be accounted for.**
- If such need should arise – filing for an additional date of an exam to be set, quoting this Instruction, through Virtual Dean's Office or USOSWeb directly after receiving information about failing the exam on the date initially set as re-take.
