

Exchange is new solution presented to students, who took part in first stage of semester declaration.

Within the „exchange” it will be possible to make changes in:

- lecturers of basic subject
- exercise group of basic subject
- exercise group of major subject.

For example, if You will be subscribed for lecture of basic subject to lecturer X for exercise group 101, and You would rather go to lecturer Y for exercise group 102, You will be able to send the offer of change in the system. If in the database will appear person, who is interested in exchange, the system will automatically connect You and make the change.
